RE: Application of Dominion Energy South Carolina, Incorporated to Have
the Terms of the Natural Gas Rate Stabilization Act Apply to the
Company's Rates and Charges for Gas Distribution Services
Docket No. 2020-6-G

Dear Ms. Boyd:

By Order No. 2020-701, dated October 14, 2020, the Public Service Commission of South Carolina ("Commission") authorized Dominion Energy South Carolina, Inc. ("DESC" or "Company") to adjust its rates and charges for natural gas service under the Natural Gas Rate Stabilization Act in the above-referenced docket. In doing, the Commission instructed DESC to "file its revised tariff utilizing the Commission's e-filing system for tariffs prior to its first billing cycle in November 2020" and to file the revised tariff "in a text searchable PDF format using the Commission's DMS System." In compliance with paragraph three (3) of the above-referenced order, enclosed for filing is a text searchable PDF format of DESC's revised tariffs. Please note that these revised tariffs include DESC's updated cost of gas factors, effective with the first billing cycle in November 2020 and of which the Company is informing the Commission by separate letter dated today in Docket No. 2006-5-G.

In paragraph four (4) of this same order, the Company was also directed to "provide a reconciliation of each tariff rate change approved as a result of this Order to each tariff rate revision filed in the ETariff system," with such reconciliation to "include an explanation of any differences" for each tariff rate change. And, in paragraph five (5) of Commission Order No. 2020-701, the Company was also instructed to "file a schedule showing the revenue produced by each and every tariffed rate approved by the Commission and reconcile the revenue produced, by tariffed rate, to the revenue requirement approved in this Order." In accordance with paragraphs four (4) and five (5) of the above-referenced order, enclosed for filing is DESC's "Revenue Reconciliation."

(Continued . . .)

Additionally, this letter confirms that DESC has also filed its tariff sheets electronically using the Commission's ETariff System.

If you have any questions, please advise.

Very truly yours,

Matthew W. Gissendanner

WEATHER NORMALIZATION ADJUSTMENT
APPLICABILITY

This Weather Normalization Adjustment (WNA) is applicable to and is a part of the Company's firm gas rate schedules 31, 32V, 32S, and 33. The commodity charges per therm for each customer account during the billing months of November through April will be increased or decreased in an amount to the nearest one-thousandth of a cent, as derived by the following formula:

$$\text{WNA} = \frac{\text{WSL} \times \text{R}}{\text{ATH} - \text{BTH}}$$

$$\text{Where: WSL} = \frac{\text{ATH} - \text{BTH}}{\text{ADD}} \times (\text{NDD} - \text{ADD})$$

WNA = Weather Normalization Adjustment factor for a particular account expressed in dollars per therm.

WSL = Weather Sensitive Load which is the difference in the amount of therms that would have been consumed by the customer during normal weather and the amount of therms actually consumed.

R = Approved rate less cost of gas for applicable rate schedule determined as follows:

<u>Rate 32V</u> R= \$0.49611	<u>Rate 32S</u> R= \$0.55611
<u>Rate 31</u> R= \$0.50520	<u>Rate 33</u> R= \$0.45520

ATH = Actual therms consumed by customer during current billing period.

BTH = Base load therms which is the average of the therms consumed by customer during the previous billing months of June, July and August. If BTH is greater than ATH, then BTH will equal to ATH. If base load therms cannot be determined, then base load therms will be as follows:

Rate 32V = 18 therms
Rate 31 = 19 therms

Rate 32S = 4 therms
Rate 33 = 739 therms

NDD = Normal heating degree days during customer's billing period authorized by the Commission.

ADD = Actual heating degree days during customer's billing period.

The appropriate revenue related tax factor is to be included in these calculations.
